

BIOCHEMISTRY BOOT CAMP 2018

DATES:
JUNE 6-8

WHO:
All grads & undergrads
doing summer research

WHAT:
Computational tools
for biochemistry

WHY:
To be the best scientist
you can be

Research is hard. And pretty pictures like the one above don't make themselves. You think they teach that in class?

BIOCHEMISTRY BOOT CAMP will cover molecular graphics, BLAST search, experimental model fitting, scientific citation tools, PCR primer design, basic UNIX, and more. Additional sessions will cover lab notebooks and chemical safety.

REGISTRATION IS FREE. To sign up, contact nfitzkee@chemistry.msstate.edu, scan the code, or visit the site below for more details.
